

BIN ODOUR ELIMINATOR

Unique Solutions for Everyday Problems.

Bin odours are often difficult to remove as bacteria and germs can hide in the porous surface of the bin - this is why just hosing the rubbish bin does not eliminate offensive odours.

Ecogreen Bin Odour Eliminator is a safe, simple and effective way of eliminating odours caused by organic waste created by household waste. The beneficial bacteria have been designed to seek out to degrade and remove the organic waste and offensive odours created by organic waste.

With no harsh or hazardous ingredients, Bin Odour Eliminator can be used on all surfaces of the bin - inside and out. Ideal for use in rubbish & recycling bins, indoor bins, food compactors and much more.

Uses

- ✓ Wheelie Bins
- ✓ Recyclable Bin
- ✓ Kitchen Bins
- ✓ Food Compactors

Available Sizes

- ✓ 500mL

Product Benefits:

- ✓ Spray & Leave
- ✓ No Scrubbing or Rinsing
- ✓ Improves hygiene and odour control
- ✓ Contains beneficial bacteria
- ✓ Active biological product
- ✓ Deters insects

Environmental Benefits:

- ✓ Safe to use
- ✓ No harsh chemicals or acids
- ✓ Non-toxic & non-caustic
- ✓ Environmentally friendly

How does Ecogreen Bin Odour Eliminator Work?

Unpleasant odours in and around bins develop when there is an abundance of waste and an imbalance between beneficial and pathogenic strains of bacteria.

Ecogreen Bin Odour Eliminator is not a mere masking agent; it is a beneficial bacterial product which, based on our exclusive biotechnology, targets the source of the problem. These beneficial bacteria produce enzymes which seize upon the organic waste, breaking it down into less complex compounds in a completely natural process.

These beneficial bacteria then feed upon these smaller compounds and the residue they produce, digesting them until they are depleted and the odour is removed.

Directions for use:

When adding odour-causing waste, spray the product directly onto the waste material to eliminate the smell. Once the bin has been emptied, spray the product directly into the bin to eliminate any remaining odour. Ideal for use on the outside of bin to repel insects which are attracted to the odours.

DISINFECTANTS AND CLEANING AGENTS KILL BENEFICIAL BACTERIA; DO NOT USE WITH THIS PRODUCT.
