

# GENERAL ODOUR ELIMINATOR

## Unique Solutions for Everyday Problems.

Offensive odours are a major issue whether it be at home or in the work place. A number of products simply mask these odours - temporarily solving the problem allowing the unpleasant odours to return.

**Ecogreen General Odour Eliminator** is a safe, simple and effective way of neutralising and eliminating odours caused by organic waste created by everyday situations. Rather than masking the odours, the innovative formulation contains natural plant extracts which encapsulate the odour causing particles, thereby removing the odour.

With no harsh or hazardous ingredients, General Odour Eliminator can be used on most hard and soft surfaces - ideal for use in removing stubborn odours caused by organic waste, sewage, dampness, mildew and other sources.

### Uses

- ✓ Hotels
- ✓ Apartments
- ✓ Foyers
- ✓ Lifts
- ✓ Garbage Rooms
- ✓ Pubs
- ✓ Confined Spaces

### Available Sizes

- ✓ 300mL

In Partnership with Nature

### How does Ecogreen General Odour Eliminator Work?

Unpleasant odours which linger can be a nuisance and at times unbearable. Ecogreen General Odour Eliminator contains natural plant extracts to control and thus remove the offensive odour. Each molecule found in the product bonds with the odour molecules to neutralise the odour. The natural plant extracts is a natural detergent rich in Saponin.

The saponin seizes upon the odour causing particles and encapsulates them, inhibiting their ability to release odours into the environment. Being a plant based product it is safe to use around children and pets. With a pleasant dewberry fragrance it can be used confidently around the home, office, toilet facilities, kitchens, public spaces, transport vehicles and much more.

### Directions for Use: Shake bottle well before use.

1. Mist product into the air around the source of odour or mist directly onto the source.

DISINFECTANTS AND CLEANING AGENTS KILL BENEFICIAL BACTERIA; DO NOT USE WITH THIS PRODUCT.
