

# LONG LASTING SURFACE SANITISER

## Unique Solutions for Everyday Problems.

Hand hygiene has become recognised as the most important way of preventing the spread of germs, bacteria and sickness. What about the surfaces we touch?

**Ecogreen Long Lasting Surface Sanitiser** is a safe, simple and effective way of reducing the spread of germs. With its powerful sanitising formulation, it kills potential germs like E. Coli and Staph. aureus for up to 30 days before the surface requires retreating.

Ecogreen Long Lasting Surface Sanitiser is a spray and leave application which begins to work as soon as it is applied to surfaces. Independent tests show a kill rate of 99% of common germs found on surfaces, reducing the spread of germs. Being safe, it can be used confidently on all surfaces such as office equipment, children's play areas, washrooms, food preparation areas, door handles, public transport and much more. Suitable for use around children and pets.

### Uses

- ✓ Offices
- ✓ Shopping Centres
- ✓ Hospitals & Clinics
- ✓ Kitchens
- ✓ Hotels
- ✓ Child & Aged Care Centres
- ✓ Elevators

## How does Ecogreen Long Lasting Surface Sanitiser Work?

When a surface is treated with Ecogreen Long Lasting Surface Sanitiser, the active ingredients within the product create a protective coating on the surface that continues to kill harmful bacteria on contact for up to 30 days. After this time the surface should be treated again to ensure the effectiveness of the product is not diminished.

## Directions for Use

1. Ensure the surface is free from any food residue, paper or excess water.
2. Spray the surface to be treated liberally and allow to dry naturally. No wiping required.

Independent tests show a kill rate of 99% against *ecoli* and *s. aureus* after 28 days' exposure.

\*Independently tested by AMS Laboratories Pty Ltd, Australia
