

PET ODOUR ELIMINATOR

Unique Solutions for Everyday Problems.

Pet odours are often offensive and can become unbearable in hot and humid conditions. Most products simply mask these odours - temporarily solving the problem.

Ecogreen Pet Odour Eliminator is a safe, simple and effective way of eliminating odours caused by organic waste created by pets and animals. The beneficial bacteria within the product have been designed to seek out to degrade and remove the organic waste and offensive odours created by pets/animals.

With no harsh or hazardous ingredients, Pet Odour Eliminator can be used on most hard and soft surfaces. Ideal for use in homes, kennels, veterinaries and much more.

Product Benefits:

- ✓ Soft Furnishings
- ✓ Concrete & Pavers
- ✓ Artificial Turf

Available Sizes

- ✓ 300mL
- ✓ 500mL

How does Ecogreen Pet Odour Eliminator Work?

Ecogreen Pet Odour Eliminator is not a masking agent or deodouriser. With its unique formulation and selected beneficial bacteria, these friendly bacteria get to work on the source of the offensive odour by digesting the organic matter, breaking it down into other degradable compounds in a natural process until the waste is depleted and the odour is removed.

Ecogreen Pet Odour Eliminator works on all types of organic matter including urine, vomit, faeces, and sweat. Being a safe, effective and natural product it can be confidently used around children and pets. Ideal to be used on pet bedding, carpets, tiles, wooden floors, fabrics, , cement, mattresses, car upholstery and much more.

Directions for Use

1. Soak up or remove any excess organic waste from the surface with paper towel.
2. Spray the surface liberally with product until the area is covered.
3. Allow the area to dry naturally - if residual is present, with a damp cloth wipe area to remove.
4. For tougher odours, repeat application may be required.

DO NOT spray directly onto animals.

DISINFECTANTS AND CLEANING AGENTS KILL BENEFICIAL BACTERIA; DO NOT USE WITH THIS PRODUCT.
